1 How to customize logo and theme in cello?

Techcello provides the capability to customize the logo and theme at each tenant level. Tenants can replace the default logo with their own organization logo similarly setting theme as per their preference.

CelloSaaS supports the following

- Modification of logo.
- Modification of theme.

For Logo customization, in the master page uses following Html extension method.

Namespace: CelloSaaS.View

Class: HtmlExtensions

Method: Html.Logo(string tenantID)

The above method will return the corresponding tenant's logo image.

To Customize Themes, Create a New Theme in App_Themes folder in the Web Application. Include all the required images and css for the theme.

1.1 *Manage Logo and Theme through UI*

- Logo and theme customization can be performed in the following ways.
 - Through Settings templates.
 - Through Account Settings

1.1.1 Through Account Settings

The Logo, Themes can also be modified under the Account Settings page under My Account Menu

The screenshot displays the CelloSaaS admin dashboard. At the top, a blue navigation bar contains icons for My Account, Subscription, Tenant, Access Control, Configuration, Business Events, Notifications, Workflow, Reporting, and Monitor. Below this, the 'Subscription plan' section features a central card for the 'Product Admin Tenant Package' priced at '\$0.00 Monthly'. The 'Company Details' section includes form fields for Tenant Name (Company), Website (http://www.company.com), First Name (admin), Email (admin@company.com), Description (Product admin tenant), Company Size (1-100), Last Name (company), and Phone Number (+1 (234) 56 89 90). The 'Billing Address' section has fields for Address 1 (address), City (city), Country (United States), Address 2, State (state), and Zip Code (12345). The 'Settings' section, highlighted with a red border, shows the Theme set to 'CelloSkin' and a 'Choose File' button for the Logo. A 'Save' button is located at the bottom right of the settings area. The footer contains the version 'v 4.3.1.0' and copyright information 'Copyright © 2013 by techcello.com. All Rights Reserved.'

1.1.2 Through Custom Setting Template

Assign custom template to tenant with logo and theme attribute from parent tenant login. Refer [Settings Template](#) to know more about the create and assign settings template. A Tenant administrator can login to the admin dashboard to change the values of the Custom Template by navigating through My Account -> Manage Tenant Template

Logo and Theme Customization

Navigation bar with icons for My Account, Subscription, Tenant, Access Control, Configuration, Business Events, Notifications, Workflow, Reporting, and Monitor.
